PROUDLY Introduces
Online Coaching Support System
Reach Great Heights in Academics Performance
In
CBSE, KERALA Boards, IITJEE, KEAM, NEET & Competitive Exams

Why do students need Online Coaching Support System? Why not they learn 100% in classrooms? The answer lies in the way students learn.

In Classrooms, each time, they are introduced to a new concept. They simply hear it as they are exposed to it for the first time. Back home, only when they try to learn the same concept they develop doubts. These are all impulsive doubts and students need support to clarify those doubts immediately.

Online Coaching Support System is supposed to play the role of clarifying doubts. Thus, new researches realize that classrooms should be the venue for doubt clearing where students and teachers interact and discuss about new concepts. When students get to interact with teachers and Mentors, they clear their doubts and understand concepts and lessons well. The methodology adopted in enables a student to understand lessons very well and excel in exams.

Let's discuss how it works and its amazing efficiency.

First Level: STUDY MATERIALS

Tutors convert the entire syllabus into small pdf. teaching format study notes. Typically one study notes will cover an entire Chapter of the syllabus. Students go through the study material before they attend a tutoring session. As the student gets a first hand impression of the subject. It develops a reasonably good understanding of the content.

Second Level: LIVE CLASSROOM

After the student goes through the study notes, he/ she joins for a LIVE interactive virtual classroom of the Tutor. In this live, virtual classroom, student gets to clear the doubts and undertakes more exercises in the subject. This process gives the child more clarity about their learning levels. Interactive sessions are particularly helpful for students who get to learn in a classroom like environment and to ask questions to tutors directly. This gives them profound understanding of the subject.

Third Level: ONLINE EXAM

Once the child completes the interactive session with the tutor, the student proceeds further to exams and quizzes provided by the tutor. The results are published immediately for the student to know his learning levels. There will be such a huge repository of question papers that the student will be really exposed to every angle of the subject. As more and more exams and quizzes are undertaken, the student will attain capability to face any challenging examination in the real world.

Forth Level: Mentors, Achievers, Aspirants

There is a Forum for students to post their doubts and get answers from their fellow friends Teachers, Academicians, Subject Experts feel it a privilege to help the Young Aspirants with answers and solutions who act as Mentors. Students quickly understand the tricks and techniques shared by them. Students get to mingle with other well-wishers on a social platform, develop friendship with more Achievers thereby widening their contact circle. They post their achievements and accomplishments Birds of same feather flock together!

Final result of 4 Level Learning

Learning levels vary from student to student. A comprehensive facility which helps students to learn subjects at their own pace in video formats will do wonders. This will turn out to be a great support for them during the time of examination. Interactive sessions will help them to learn from a live tutor. Queries, answers and exercises will make them understand concepts well. Online Exams and instant results will help them realize their learning levels. Vaults of online questions refine them with automatic learning. They will realize their improvements in a steady fashion. And finally, their Mentors will stuff them with options, tips and easy ways to score well. Assessment Reports At the end of each test, you get three personalized reports, namely, Performance Report, Question-wise Report and Remedial Report. These unique reports are designed to accurately predict your current proficiency level, identify topics of concern, compare your performance with your peers, and monitor your study progress

ZOOM, GOOGLE MEET, GOOGLE CLASS ROOM

Virtual classrooms are comparable with video conferencing. Virtual classrooms are more like real world classrooms. Students can see and interact with tutor who takes the classroom session. Tutors can also see students and interact with them.
